FEEDING RECOMMENDATIONS

- Adapt animals to the feed over a period of 9 days.
- Keep troughs filled and prevent gluttonous eating by hungry animals.
- A constant daily intake can help to prevent rumen digestive problems.
- Clean fresh water must always be available to the animals.
- Store in a cool, dry place, away from direct sunlight.

Form: Pellets

Packaging: 40 kg Bags

WARNING

This farm feed contains a NPN source and registered stock remedies. Feed strictly according to instructions.

Complete feed for sheep finishing

- Feed Sheep Fattening Pellets to sheep in feedlot.
- Contains ammonium chloride to prevent kidney and bladder stones in sheep.
- Contains growth stimulants for improved growth rate and feed conversion.
- Quality raw materials are used to improve dry matter intake and maximise performance.

FEEDING INSTRUCTIONS

1. Protect the feed from rain. NPN (e.g. urea) is soluble and animals drinking such a solution could be poisoned.
2. This farm feed must not be fed indiscriminately together with other NPN-containing feeds. Consult an AFGRI Animal Feeds Technical Advisor for recommendations.
3. Vinegar is an effective remedy against NPN poisoning. Treatment: Mix with an equal amount of water and dose half a bottle per calf or large sheep and 2 to 4 bottles per head of cattle (1 bottle = 750ml).
4. Guidelines for intake: Intake will depend on age and condition of the animals.
