

Exel-Mel products are *urea-free* and formulated for utilisation with almost any roughage source for high milk production as well as high milk solids

- Exel-Mel products are urea free.
- Exel-Mel products have a high energy content and are perfectly balanced to maintain high milk production, health and reproduction.
- Exel-Mel products contain high levels of highly digestible bypass protein which increases milk production and optimises levels of milk protein.
- Exel-Mel products contain ionophores and other medicaments for improved rumen health and feed conversion.
- Exel-Mel products are palatable.

COMPOSITION	Exel-Mel 10 NPN Free	Exel-Mel 12 NPN Free	Exel-Mel 15 NPN Free	Exel-Mel 17 NPN Free	Exel-Mel 19 NPN Free
Class:	Concentrated Dairy Feed				
Registration Number:	V23281	V15966	V15967	V4649	V8311

FEEDING RECOMMENDATIONS:

- The quantity of dairy feed fed per animal will depend on:
- The quality and availability of grazing and/or roughage.
 - The stage of lactation.
 - Milk and milk solids production.

Form: Mash or Pellets

Packages: Bulk or 40 kg Bags

FEEDING INSTRUCTIONS

- Adaptation of animals is important when changing from a NPN-free dairy meal to a dairy meal which contains NPN (eg.urea). It is advisable to use a 50/50 mixture of the two types of meal over a period of 4-6 days in order to facilitate adaption.
- It is recommended that the dairy meal be fed in at least 2-4 meals per day or as a TMR (Total Mixed Ration).
- This dairy meal should not be fed indiscriminately together with NPN containing feeds. Consult an AFGRI Animal Feeds Technical Advisor for recommendations.
- Protect the feed against rain.
- Vinegar is an effective remedy against NPN poisoning. Treatment: Mix with an equal amount of water and dose half a bottle per calf or large sheep and 2 to 4 bottles per head of cattle (1 bottle = 750ml).

WARNING

This farm feed contains registered stock remedies. Feed strictly according to instructions.
