

- Top-Mel is a dairy meal which contains relatively high levels of maize and urea.
- Top-Mel products are mainly used as supplements on high quality roughage for average milk production outputs.

### FEEDING RECOMMENDATIONS

The quantity of dairy feed fed per animal will depend on:

- The quality and availability of grazing and/or roughage.
- The stage of lactation.
- Milk- and solids production.

**Form: Mash or Pellets**

**Packages: Bulk or 40 kg Bags**

### FEEDING INSTRUCTIONS

- Adaptation of animals is important when changing from a NPN-free dairy meal to a dairy meal which contains NPN (eg.urea). It is advisable to use a 50/50 mixture of the two types of meal over a period of 4-6 days in order to facilitate adaption.
- It is recommended that the dairy meal be fed in at least 2-4 meals per day or as a TMR (Total Mixed Ration).
- This dairy meal should not be fed indiscriminately together with other NPN containing feeds. Consult an AFGRI Animal Feeds Technical Advisor for feeding recommendations.
- Protect the feed against rain. Urea is water soluble and animals drinking such a solution could be poisoned.
- Vinegar is an effective remedy against NPN poisoning. Treatment: Mix with an equal amount of water and dose half a bottle per calf or large sheep and 2 to 4 bottles per head of cattle (1 bottle = 750ml).

COMPOSITION	Top-Mel 17	Top-Mel 19	Top-Mel 21
Class:	Concentrated Dairy Feed		
Registration Number:	V18907	V18906	V18908
