Quality Bypass Protein Supplement for Ruminants

Why AminoMax™

- **AminoMax™** is produced by highly controlled enzymatic processing technology which is unique in the world.
- **AminoMax™** has a minimum bypass protein value of 65% and is highly digestible in the lower intestine.
- **AminoMax™** is urea free.
- **AminoMax™** amino acid profile complements the amino acid requirements of ruminants in the lower intestine for different production functions such as growth, meat-, wool- and milk production.
- **AminoMax™** is very palatable and therefore promotes feed intake.
- **AminoMax™** reduces nitrogen excretion and is therefore environment friendly.
- **AminoMax™** improves the efficiency of protein utilization in the animal.
- **AminoMax™** is produced according to "green" technology standards, thus not harmful to the environment and safe to work with.
- **AminoMax™** holds zero risk of harmful residues in milk or meat.

FEEDING RECOMMENDATIONS

- This is a supplement and not a feed.
- Sufficient grazing/roughage must be available at all times.
- A constant daily intake can help prevent digestive problems.
- Keep feed troughs filled to prevent gluttonous eating by hungry animals.
- Store in a cool, dry place, away from direct sunlight.

Form: Mash

Packaging: 40 kg Bags
